PROFESSIONAL SUMMARY

Junior Full-Stack Web Developer with hands-on experience building web applications using Angular, React, Next.js, Node.js, and NestJS. ITI graduate of the Full-Stack Web & Generative AI Development program, with practical experience developing REST APIs, authentication and role-based access control, responsive interfaces, and AI-powered features through individual and team projects.

TECHNICAL SKILLS

Frontend: Angular, React, Next.js, TypeScript, JavaScript(ES6+), HTML5, CSS3, SASS/SCSS, Responsive Design, Tailwind CSS, RTL/LTR Support

Backend: Node.js, Express.js, NestJS, REST APIs

Databases: MongoDB, MongoDB Atlas

Tools & DevOps: Git, GitHub, Postman, Vercel, Cloudinary, Trello

SELECTED PROJECTS

EduGenie — AI-Powered E-Learning Platform

06/2026

Angular 20, Next.js, NestJS, TypeScript, MongoDB, AI/RAG

5-Developer Team | ITI Graduation Project

- Developed major parts of the **Angular Admin Dashboard**, including the **Course Approval, Categories, Notifications, and Admin management pages**, with responsive and role-based interfaces.
- Implemented the **authentication flow and Login page** in Angular, integrating it with the backend authentication APIs.
- Developed the **Instructor Profile and Management** functionality, including profile data management and **Cloudinary integration** for avatar/image handling.
- Contributed to backend development with **NestJS** through the implementation of the **Instructor Management** functionality and its API integration with the frontend.
- Collaborated with the team using **Trello** for task tracking and **Git/GitHub** for feature branches, pull requests, code reviews, and merges.
- [Live Demo](#) 🔗 | [GitHub: Dashboard](#) 🔗, [Student](#) 🔗, [API](#) 🔗

NexusBooks — Full-Stack Book Rental Platform

05/2026

Individual Project | Next.js, Express.js, Node.js, MongoDB,

Mongoose, JWT, REST API

- Built a full-stack book rental platform with separate **user and admin workflows**.
- Developed REST APIs with Express.js and implemented JWT-based authentication and role-based authorization for secure user and admin access.
- Built role-specific dashboards and book management functionality using Next.js.
- [Live Demo](#) 🔗 | [GitHub: Front-end](#) 🔗, [Back-end](#) 🔗

Ada Store — E-Commerce Frontend

04/2026

Individual Project | Angular 20, TypeScript, Tailwind CSS,

REST API, Angular Signals

- Built a responsive e-commerce SPA using Angular 20 and a RESTful product API.
- Implemented **authentication, route guards, reactive forms, lazy loading, search, and filtering**.
- Structured the UI using reusable Angular components for maintainable product and shopping workflows.
- [Live Demo](#) 🔗 | [GitHub](#) 🔗

Personal Portfolio — Bilingual Developer Portfolio

08/2026

Individual Project | React 19, Vite, JavaScript, Framer

Motion, Context API, CSS

- Built a responsive single-page developer portfolio using React, showcasing projects, technical skills, education, training, and professional background.

- Implemented reusable components, React Context API for theme and language state, smooth animations with Framer Motion, and responsive layouts across mobile, tablet, and desktop.
- Developed bilingual English/Arabic support with full RTL/LTR layout switching, including dynamic metadata and structured data for improved SEO and accessibility.
- [Live Demo](#) | [GitHub](#)

Movies App – Movie Discovery Web App

03/2026

Individual Project | React.js, Redux, TMDB API

- Built a responsive movie discovery app using React and TMDB API, with Redux for managing favorite movies and application state.
- [Live Demo](#) | [GitHub](#)

TRAINING & CERTIFICATIONS

Intensive Training Program – Full-Stack Web & Generative AI Development using MEARN

01/2026 – 06/2026 | Qena, Egypt

Information Technology Institute (ITI)

Covered: Full-Stack Web Development, MongoDB, Express.js, Angular, React, Node.js, JavaScript, TypeScript, REST APIs, Generative AI, and real-world web projects.

Additional Topics: GraphQL Fundamentals, Software Testing with Jasmine, Docker & Containerization Basics.

Front-End Development Summer Training

08/2024 – 09/2024 | Qena, Egypt

Information Technology Institute (ITI)

Covered: HTML5, CSS3, Responsive Web Design, Bootstrap 5, JavaScript, TypeScript, Angular, and Flutter fundamentals.

EDUCATION

B.Sc. in Computer Science

2021 – 2025 | Qena, Egypt

Faculty of Computers & Information, South Valley University

ACHIEVEMENTS & ACTIVITIES

ACPC SVU – Mentor:

2023 – 2024

Mentored university students in problem solving and competitive programming, supporting their technical development and preparation for programming contests.

Egyptian Collegiate Programming Contest (ECPC):

2022 – 2023

Participated in the qualification contest twice; ranked **38th** in the second participation and achieved a **First Accepted (AC)** problem submission.

Rally – Head of Marketing:

2023 – 2025

Led marketing activities for entrepreneurship-focused events and initiatives.

NTI – Ambassador & Video Editing:

2024 – 2025

Participated as an NTI ambassador and contributed to video editing activities.

LANGUAGES

- Arabic (Native)
- English (Upper-Intermediate)
